

People of Earth,

Dear sir madam,

~~To whom it may concern,~~

~~Hay guys,~~

Hello!

I wish to today to bring to your attention a matter of grave concern for all Earthlings bipeds everybody on your planet, the Earth. I am of course speaking about the pie Quantum Chromodynamic Cyclotron currently in orbit around your planet, the Earth. As all sentient intelligent Earthlings bipeds peoples know, pie Chromodynamic Matter emits high levels of eustard apple radiation that have been linked to dessert genetic mutations, the melting of the polar ice cappuccinos, and sexual side-effects. The government of this planet, the Earth, continues to refuse to deny their inability to acknowledge these pies allegations! Wake up sheeple! The longer we continue to allow the government of this planet, the Earth, to maintain the pie Quantum Chromodynamic Cyclotron in orbit around your planet, the Earth, the harder it will be to reverse the ice-cream meringue effects upon the Earthlings inhabitants humans lemons us and your offspring! Why won't you think of the pudding offspring!?!?!?

End pie Chromodyne experiments now! We can have peas in our time! Think of the offspring! Visit <http://celsiusgs.com/chromodyne> for important pie-information!

Yours Sincerely,

Dr. Gary T. Ayleeun, ESQ, DDL, DDS, BMO, PIE, Real Doctor
